## Project Assignment - **Validated Hobbies/Interests Webpage**

### Details:

**Be sure to follow all instructions closely. Your coding should be done in accordance with HTML5 & CSS3.**

(1) **Validated Hobbies/Interests Webpage:** Using Notepad++ and the template webpage that you previously made, create your hobbies webpage that follows the CRAP principles that you studied during Week 1. **Validate** the hobbies/interests webpage before making your submission.

**NOTE: This webpage should be designed for a desktop view only. Starting with Week 5 you will start making your website to behave responsively. Do NOT implement responsive design for this assignment. Wait until the following week.**

(2) **Validated Style Sheet** (*few, if any changes should be needed*)

To create the **Hobbies/Interests webpage** do the following:

**Add the following items** to your **template webpage** that was created during Week 1 to meet these **expected requirements** for your **hobbies/interests webpage** that will discuss **your involvement** with two of your favorite hobbies/interests:

- Insert an **image** related to your first hobby/interest in the upper right of

the main section of the webpage. The webpage's text should wrap around this image. The image's width should be **550-650px**.

- Insert a **main headline** indicating the subject of the hobbies/interests webpage at the top of the main section of the webpage.
- Insert a sub headline indicating the first of two personal hobbies/interests that you are discussing on the hobbies/interests webpage.
- Add several **paragraphs** that each have **4-6 sentences** beneath this first sub headline. These two paragraphs should discuss your first **hobby/interest**.
- Add a **horizontal line** to separate the discussions of the two personal hobbies/interests.
- Provide a sub headline beneath the horizontal line to indicate your second hobby/interest.
- Insert a second **image** related to your second hobby/interest that will be placed to the right side of the main section of the page. The webpage's text should wrap around this image. The image's width should be **550-650px**.
- Add several **paragraphs** that each have **4-6 sentences** beneath this second sub headline. These two paragraphs should discuss your second **hobby/interest**.
- Beneath this discussion of your second hobby/interest, add another **horizontal line**.
- Then, at the bottom of this main section of the hobbies/interests webpage, add a **bullet list** of **external links** related to your two hobbies/interests that. When these links are clicked the linked external (remote) webpage should open in a new window. Provide six links - three for each hobby/interest. Provide a subheading above this bulleted list of external links. Use "More Information" or some other suitable sub headline.
- Your design should be a continuation of your originally chosen color scheme.
- All **links** to webpages should be working; email and phone **links** should appear in the footer

The hobbies/interests webpage's appearance will be tested in multiple browsers: Firefox, Chrome, Edge, and Opera, and its HTML code will be reviewed for completeness, accuracy, and appearance.

**Include an HTML comment near the top of the HTML code that includes your name and the date. Be sure to indent your code as your textbook's author Jessica Minnick has demonstrated.**

Once you have created the hobbies/interests webpage above, zip together all of the following:

Your validated **style sheet** (*few, if any, changes should be expected*)

Your validated **hobbies/interests webpage**

Your two **logo image files** (header logo/footer logo)

The **two pictures** of your **hobbies/interests** that you are using on the validated hobbies/interests webpage

### Submission:

All of the files listed above should be **zipped together** and submitted by using the "Submit" button above. Sharing your work with others or downloading someone else's work might result in a grade of 0. Your assignment should be shared **ONLY** with the instructor.

Late assignments **will not be accepted.**

**NOTE: Assignments will NOT be accepted through e-mail.**

**NOTE: IF YOUR PREVIOUS IMAGES FOR YOUR MAIN SECTIONS IN PRECEDING WEBPAGES WERE NOT LARGE ENOUGH IN SIZE, GO BACK AND REPLACE THEM WITH IMAGES THAT DO MEET THE REQUIREMENTS. IF THEY WERE TOO LARGE, RESIZE THEM. THIS WILL BECOME IMPORTANT FOR YOUR FUTURE ASSIGNMENTS.**

## Grading Key for Week 4's Validated Hobbies/Interests Webpage

Task	Points Possible	P E  De

<b>Validated Style Sheet</b>		
Selectors		
Rules		
Validation		
Margins (left/right) provided for the webpage		
Space provided about images		
Sans serif font provided for the paragraphs		
Horizontal rules' color is from the color palette (NOT black or white)		
Horizontal rules' height is increased		
<b>Google Font Applied to All Headlines &amp; Sub Headlines</b>		
Implements CRAP Principles		
<b>Validated Hobbies/Interests Webpage (HOBBYP)</b>	<b>135</b>	
Header Logo		
<b>Navigation - HOME, SOCIAL SKILLS, &amp; HOBBIES LINKS WORK</b>		
1st Hobby/Interest Image >> size - width is 550-650 px >> word wrapped		
Main Headline >> Represents the webpage's content		
1st Sub Headline >> Represents the subject matter of the 1st hobby/interest		
Paragraph 1 (4-6 sentences)  >> Discusses student's personal <b>involvement</b> with the 1st hobby/interest		
Paragraph 2 (4-6 sentences) >> Discusses further the student's personal involvement with the 1st hobby/interest		
1st Horizontal Line >> width, color		
2nd Hobby/Interest Image		

>> size of the width is 550-650px >> word wrapped		
2nd Sub Headline >> Represents the subject matter of the 2nd hobby/interest		
Paragraph 3 (4-6 sentences) >> Discusses the student's personal involvement with the 2nd hobby/interest		
Paragraph 4 (4-6 sentences) >> Discusses further the student's personal involvement with the 2nd hobby/interest		
2nd Horizontal Line >> width, color		
Sub Headline for Bulleted List		
Bulleted List		
External Links Related to Hobbies/Interests >> All external links have the linked page open in a new window		
Footer Logo		
Footer Text		
Footer links		
Footer horizontal lines >> width, color
